PROFESSIONAL SUMMARY

Motivated second-year Software Engineering student at Addis Ababa Science and Technology University (AASTU), with a growing foundation in programming, web development, and software engineering principles. Interested in developing practical software solutions, improving technical skills, and working collaboratively on innovative projects. Eager to gain practical experience and contribute to real-world technology projects.

EDUCATION

Bachelor of Science in Software Engineering
Addis Ababa Science and Technology University (AASTU)
Addis Ababa, Ethiopia
Currently in Second Year

TECHNICAL SKILLS

- **Programming Languages:** C++, Java, Python
- **Web Development:** HTML, CSS, JavaScript
- **Backend Development:** Python, Flask (basic experience)
- **Database:** Basic database concepts and SQL
- **Data Tools:** NumPy and pandas (introductory experience)
- **Development Tools:** Visual Studio Code, IntelliJ IDEA
- **Version Control:** Git and GitHub

PROJECT EXPERIENCE

1. EduConnect Ethiopia — School Discovery Platform

- Contributing to a web platform that helps families discover and explore schools in Ethiopia.
- Working on school information, discovery features, and website functionality.

- Collaborating with team members during project development.

Technologies: HTML, CSS, JavaScript, Python, Flask.

2. Simple Calculator
Java Project

- Developed a calculator application to practise programming fundamentals.
- Implemented basic arithmetic operations.
- Practised problem-solving and program logic.

Technology: Java.

3. Movie Discovery Website
Web Development Project

- Worked on a website designed to present and explore movie information.
- Practised creating and organizing web pages.
- Developed practical experience in website development.

Technologies: Add the actual languages and tools used in your project.

RELEVANT COURSEWORK

- Object-Oriented Programming
- Data Structures and Algorithms
- Internet Programming
- Software Systems Analysis and Modeling
- Computer Organization and Architecture

PERSONAL SKILLS

- Problem-solving and critical thinking
- Teamwork and collaboration
- Communication skills
- Time management
- Willingness to learn new technologies
- Interest in event organization and project management

CAREER OBJECTIVE

To gain practical experience through internships and collaborative projects, strengthen my software development skills, and contribute to building useful and innovative technological solutions.
